Region 8 Administrator Benevento,

It was great meeting and talking with you at the February EPA Oil & Gas Stakeholder Roundtable at your office in Denver.

It appears the focus of the smart sectors initiative will **not** include the oil and gas sector.

If that changes please let me know because Kinder Morgan would very much want to participate. We have significant operations in EPA's Region 8.

Take care,

Employee Observations - It's not a gotcha - it's "I've got your back!"

[This email message was received from the Internet and came from outside of Kinder Morgan]

Hi Dave,

The Region 8 Smart Sectors program will focus on the mining, agriculture and outdoor recreation/tourism sectors. We will be convening round table discussions with the regulated community in these sectors in the six states which make up Region 8. Would these sectors be of interest to you?

Thanks,

Patrick Davis

Hey Dave – thanks for your email! I’ve cc’d Patrick Davis who is heading up the Region 8 Smart Sectors, he’ll be able to tell you more about what their initiative will look like and how Kinder Morgan can be involved. And as always let me know if I can be helpful from HQ.

Best,

Daisy C. Letendre

Subject: Region 8 Smart Sectors

Hello Daisy, I am glad we had a chance to visit last October about Smart Sectors. We understand that Region 8 is planning to begin an effort within your program, and we are wondering how best we can get included in it. Our Lakewood and Colorado Springs executives would be keen to participate. Can you give me any advice? Thanks and best wishes, Dave

Dave Conover

Kinder Morgan, Inc. (NYSE: KMI) is one of the largest energy infrastructure companies in North America. It owns an interest in or operates approximately 85,000 miles of pipelines and 152 terminals. KMI's pipelines transport natural gas, refined petroleum products, crude oil, condensate, CO2 and other products, and its terminals transload and store petroleum products, ethanol and chemicals, and handle steel, petroleum coke, and other products. It is also a leading producer of CO2 that we and others use for enhanced oil recovery projects primarily in the Permian basin. For more information please visit www.kindermorgan.com.
